Description	ARB Esperance 2 Compact Hardshell Rooftop Tent
Part No.	802200V2
RRP EURO	3370,70
Fitting Time	1 Hour
Availability Date	Mid April 2025

Overview

Capturing three years of customer feedback since it's initial launch, the next generation Esperance RTT delivers over 40 thoughtful product enhancements to refine the ultimate compact and lightweight rooftop tent experience.

Through a simplified operation, integrated 12v electrics and desire to increase comfort, ARB engineers have levelled up the user experience making the all-new Esperance perfect for adventurers chasing a lightweight but feature packed all-rounder!

Whilst still coming standard in dark grey, ARB is delighted to now also offer customers the ability to paint the shell in any colour of your choice for truly tailored integration with your vehicle.

Features and Benefits

Exterior Upgrades

- Curved to suit modern vehicle lines whilst adding strength
- Now with ARB D-handle operation for easy and ergonomic open and close
- Key lockable for security
- Ability to leave compact bedding inside on close
- Integrated front wind deflector
- New powder coated black aluminum extrusion edging
- Quality '3M' vinyl decal now with cutouts for fasteners

- Lightweight and compact footprint weighing only 59kg
 - Strategically styled for both form and function
- Now reinforced with internal roof bow and updated high heat ABS shell design for long durability in global climates
- Comes standard in dark grey or ARB can colour code to match your vehicle (CC24)

- 200GSM poly-cotton, fire retardant tent fabric
- 210 denier removable rain fly, silver coated for insulation
 - 3 meter waterhead rating
- Durable stainless steel mounting hardware
- ARB BASE Rack mounting brackets now standard

12v Electrics

- Electrical control box moulded on inside of shell providing total control at your fingertips
 - 2x USB-C outlets for modern day smartphones
 - USB-A outlet
- 12v power socket for electric blankets and other accessories
- Dual control lighting, independently switched meaning lights can be switched on before climbing the ladder and off once tucked in

- 3m power cable with Anderson to 12v vehicle socket
- External power coupling mounted to folding base for easy access
- Exterior lighting push button controlled and illuminated for visibility at night
- Tent wiring neatly concealed within honeycomb base

- Interior and exterior LED lighting for use as campsite area lights or illuminating the optional annexe room extension

Increased Comfort

- Comfortable 50mm thick convoluted 'egg-crate' style foam mattress now standard
- Removable 'peach skin' mattress protector.

- 2x additional ventilation windows added in highest parts of tent body to increase air flow and combat condensation

- Additional zip-on transparent windows now included for adverse weather.
- Removable when not required to prioritize air-flow.
- Insect screen and black out canvas also standard

- Telescopic ladder features angled steps for better support and comfort underfoot
- Ladder and extrusions now black

Improved User Experience

- Glow in the dark zippers for easy access at night
- Rope zipper pulls for quietness in the wind

- Self locating magnets replace traditional hook and loop retainers on all windows and doors for quick and effortless operation

- Folding base tie down points, guy ropes and pegs now included for fastening the tent in high wind environments

- Powder coated black window rods
- Rubber stoppers equipped to divert rain water away from tent

- All black extrusions, including ladder, brackets, edges, mount rails and rods
- Stainless steel fasteners

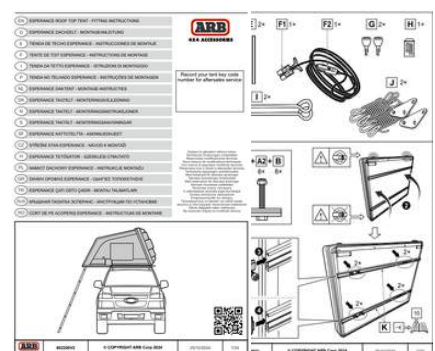

- Window rod storage pocket sewn below front door for easy access whenever required

- Included mount brackets now compatible with ARB BASE Rack
- Foam padded to protect the mounting surface

- Rain fly now features a clear window enabling use of the moonroof with the fly attached
- Length of rain fly skirt increased for better protection

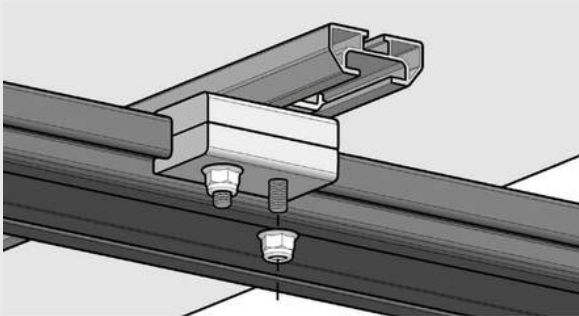

- User manual updated featuring easy to understand and multi-lingual pictorial style instructions.

Colour Coding

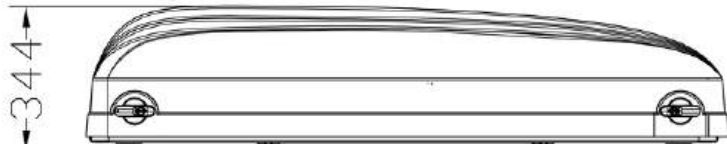

- Esperance 2 is now being offered with optional shell colour coding
- Painting done in house with 3 year warranty
- Paint charge of \$495 includes application of new decal set
