

RHINO-RACK®

MAKE SPACE FOR ADVENTURE

LOW PROFILE ROOF TOP TENT

DEALER RELEASE ONLY

Details subject to change

V05.04

INTRODUCTION

The **Low Profile Roof Top Tent** features a slim, lightweight design with integrated accessory channels that turn the hard top into a functional platform. Mesh side windows improve airflow and visibility, while built-in lighting and heat tubing options support all-season comfort. Fast setup and pack-down make it ideal for spontaneous off-grid escapes.

KEY FEATURES

- **Low profile, lightweight design:** Slimline construction reduces drag and weight, while integrated accessory channels allow the hard top to double as a functional mounting platform.
- **Quick release mounting system:** Supplied with quick release brackets for fast installation and removal. Compatible with crossbars and Rhino-Rack Pioneer platforms.
- **Gas strut assisted setup & pack-down:** Gas strut assisted opening enables fast, effortless setup and pack-down, so you can spend more time enjoying camp and less time setting up.
- **Enhanced ventilation & visibility:** Dual-side mesh windows improve airflow and provide clear views of your surroundings from inside the tent.
- **Integrated LED lighting system:** Built-in LED lighting can be connected to an external power source, with adjustable brightness controls to suit your setup and conditions.
- **Integrated USB power board:** Includes a built-in USB power board for charging devices or powering accessories, with a dedicated pass-through via the heater tubing port for clean cable routing from your vehicle or canopy battery system.
- **All-season ready integrations:** Features internal lighting channels and a dedicated heat tubing port to support comfortable camping in colder conditions.
- **Dual-side ladder access:** Ladder mounting points on both the side and rear of the tent provide flexible access options to suit different vehicle setups.
- **Internal storage & device viewing pocket:** Integrated organiser with multiple pockets for essentials, plus a clear viewing pocket designed to securely hold a tablet or iPad for hands-free viewing.
- **External boot bags for clean storage:** Convenient boot bags provide a place to store muddy shoes outside the tent, helping keep the interior clean and organised.
- **Premium comfort mattress:** 70mm double-layer mattress delivers enhanced support and comfort for a better night's sleep outdoors.
- **Complete kit included:** Includes tent, ladder, mounting system, plus all required hardware and tools for installation.
